

Radon Monitoring Network Service(RMNS)

Do you really want to live with the *invisible killer*?

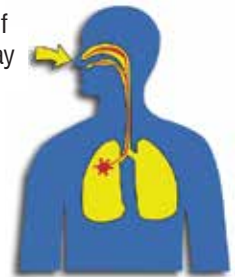

What should we do to overcome the invisible killer

Home Owner

- I'm blind in front of the killer.
- Too slow to find the killer.
- Too expensive to find the killer.

Inhalation of Radon Decay Products

RADON

Mitigation Expert

- I wish I could safeguard all customer at once.
- I wish I could see the invisible killer in real time.
- I wish I could build safety zone by reasonable price.

Government

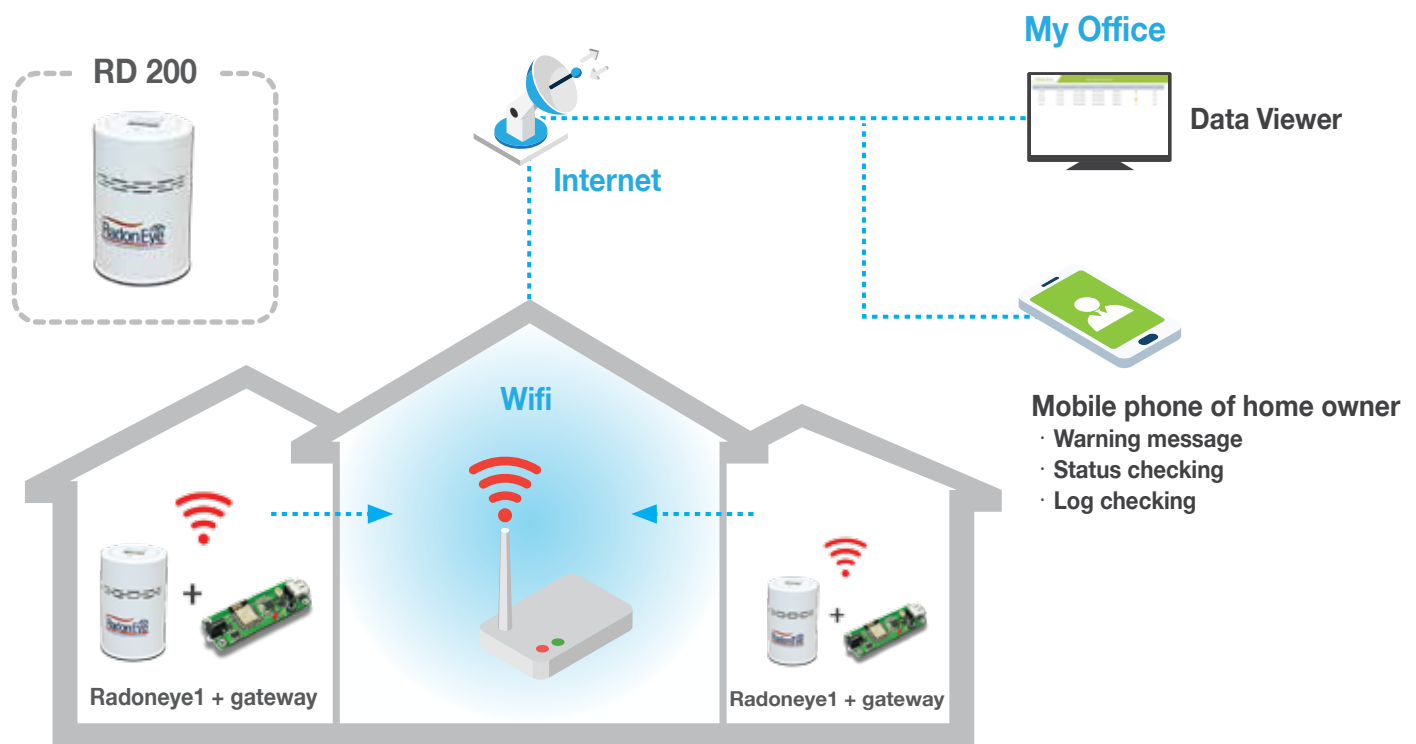

- We would have monitored the killers trace widely.
- We would have made countermeasures by newest data.
- We would have given a feeling of relief by a system.

Researcher

- How can I analyze the killers behavior pattern with no exception
- How can I get the killers wide area data to reduce other environmental risk
